SOFTWARE ENGINEER Capable of delivering efficient and functional full-stack applications through collaboration, passion, and creativity.

SKILLS

- | | | |
|----------------------|----------------------------|----------------------------------|
| ▪ React.js | ▪ MySQL | ▪ Passion |
| ▪ Python | ▪ MongoDB | ▪ Public Speaking |
| ▪ HTML | ▪ Scrapy | ▪ Collaboration |
| ▪ CSS | ▪ Material UI | ▪ Written and Oral Communication |
| ▪ JavaScript | ▪ Semantic UI React | ▪ Adaptability |
| ▪ Git | ▪ Bootstrap | ▪ Empathy |
| ▪ DOM Manipulation | ▪ Heroku Deployment | ▪ Detail-Oriented |
| ▪ RESTful APIs | ▪ Asynchronous Programming | ▪ Problem Solving |
| ▪ Node.js | ▪ Agile Methodologies | ▪ Creativity |
| ▪ Express | ▪ Pair Programming | |
| ▪ Jest, Unit Testing | ▪ Debugging | |

EXPERIENCE

Hearful Hub, Junior Developer Feb 2021 – Present

- Create and debug scraper spiders using Python and Scrapy, then add them to MongoDB for data analysis
- Improve upon our frontend portal using React, Typescript, and AWS Serverless according to client need

Trilogy Education, Senior Tutor March 2020 – Present

- Teach on a gradient so that each student knows the foundational topics before moving onto the next one, resulting in more students who are better prepared to be software engineers
- Organize a roster of students and working with each one individually to schedule appointments that work for them and me so that we can tackle any challenges they may be having with the course

DigMEE Partners, Teefury, Software Developer Intern May 2020 – Oct 2020

- Successfully fixed multiple bugs and added features to the Teefury Artist Dashboard (<http://artists.teefury.com>) using React and Redux, resulting in a more polished UI and look of the application
- Utilized agile methodologies by completing tickets on ClickUp within the given sprint times

Spokeo, Chrome Extension Lead Developer March 2020 – May 2020

- Built a Chrome Extension for Spokeo that scans a website for names, phone numbers, emails, and addresses, generating links to spokeo.com with those entities as the search terms
- Successfully connected the front and backends with Axios, React, and Express, overcoming CORS issues
- Heavily researched the Chrome API for use with interacting with tabs so that the extension can effectively scan pages

Horizon Media, Lead Web Developer Oct 2019 – Nov 2019

- Programmed a full stack application that finds and compiles box office data by time frame and genre for STX Entertainment
- Created the backend using Node and Express, allowing the application to be connected to the OpusData API with Axios

EDUCATION

Certificate in Full Stack Web Development (UCLA Extension) March 2020

University of California, San Diego June 2019

- Bachelor of Science: Joint Mathematics and Economics, Bachelor of Arts: Theatre
- Phi Beta Kappa, GPA: 3.78
